

The Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear The Federal Communications Commission,

Watch out for these guys. It's not really for the consumer as much as it is for their own profits.

I urge you to look at the big picture and not be blinded by this tactic and take it for what it is. A blatant attempt to allow for price increases with no consequences.

Sincerely,

Shad Price
